Dear Sir/Madam

A3066 Sea Road North Toucan Crossing, Bridport Cycleway – Night Works

We are currently installing a new Toucan Crossing and completing the shared use facility/cycleway. We need to carry out some carriageway resurfacing works as part of the scheme. A map showing the locations and extent of the works can be found overleaf.

To avoid a road closure, and minimise disruption to traffic, the surfacing works will be done at night using temporary traffic signals with a convey system to reduce the through traffic speed to 10mph, enabling us to maintain a safer environment for the workforce.

Construction of the scheme will be carried out by Dorset Highways and staff from this office will supervise the work. The works will be carried out between the hours of 7pm to 7am on Thursday 23 or Friday 24 November 2017. The works will only take one night. We do not anticipate the works to take all night, with the noisiest operation of removing the existing surface completed by 10pm.

Unfortunately, with this sort of work, some inconvenience may be caused but we will ensure that it is kept to a minimum. If you feel the work is likely to cause any particular problems, which could be helped by special arrangements (eg for anyone with a mobility problem or for special deliveries you might be expecting), please contact our Scheme Engineer.

The Scheme Engineer will be Michael Paulley, who is based at the above office, and can be contacted by telephone on 01305 225336. Alternatively, a message can be left with Dorset Direct on 01305 221000, who will arrange for the Scheme Project Manager to contact you. The construction team's representative, Dave Stone, can be contacted on 01305 228100.

The contractors are members of the Considerate Constructors Scheme, the Construction industry's national scheme set up to improve the image of Construction.

If any emergencies occur out of normal working hours, please telephone 01305 221000 where your message will be passed on to the relevant personnel.

Yours faithfully

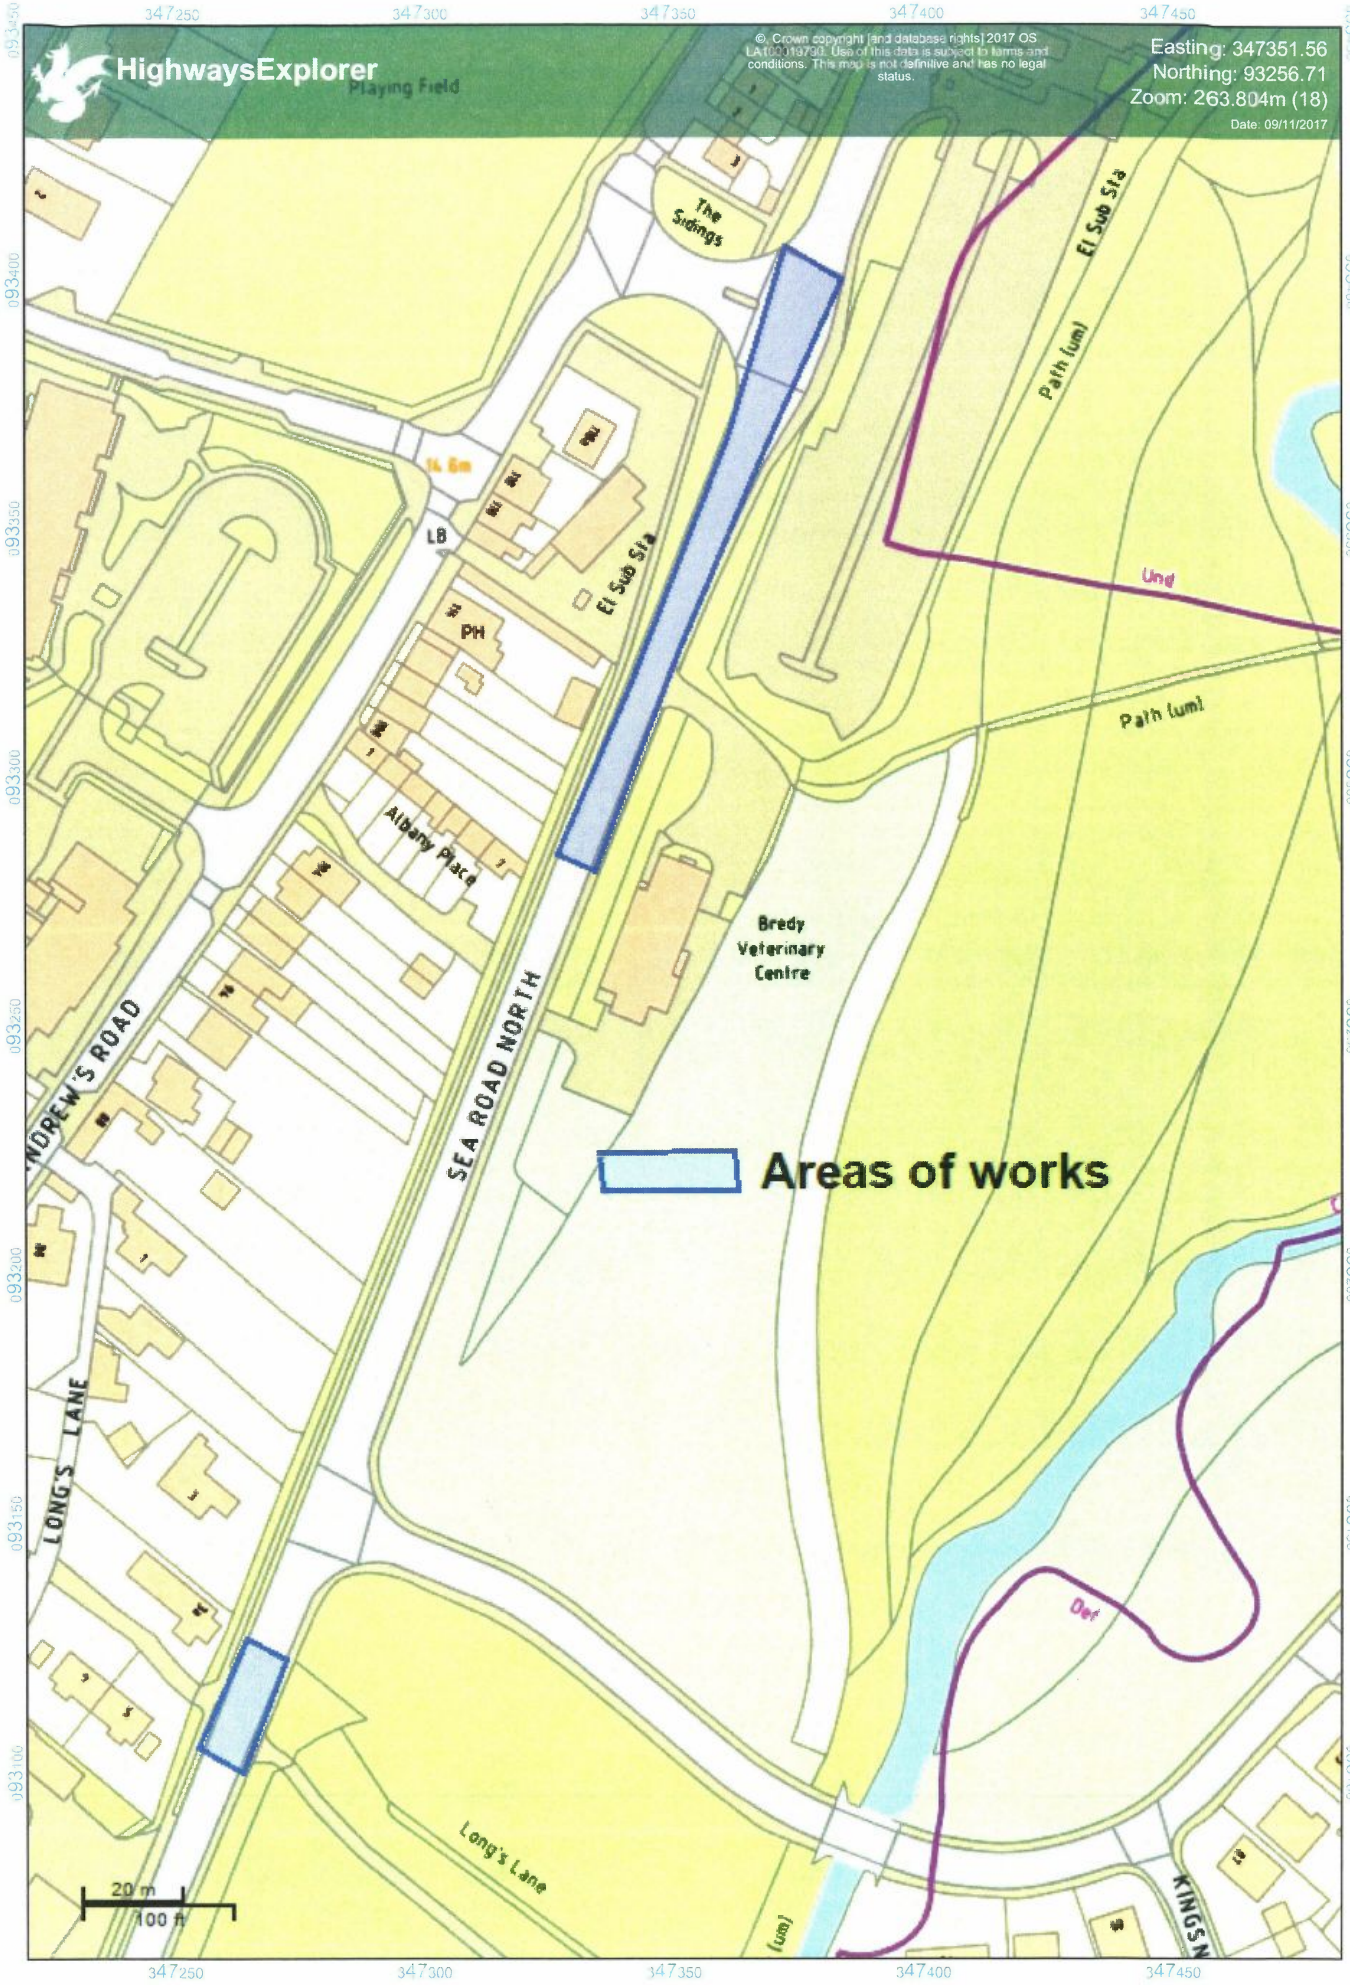

Simon Butler
Scheme Project Manager
